- Ability of QIEPL to cope up with the work, in case of non-performance or failure by a third party by having suitable back-up arrangements;
- Regulatory status of the third party , including its fitness and probity status;
- Situations involving conflicts of interest between QIEPL and third party and the measures put in place by the company to address such potential conflicts, etc.

While there are no prohibition on a group entity/ associate of the QIEPL to act as the third party, systems is put in place to have an arm’s length distance between the QIEPL and the third party in terms of infrastructure, manpower, decision-making, record keeping, etc. for avoidance of potential conflict of interests. Necessary disclosures in this regard will be made as part of the contractual agreement. Risk Management practices expected to be adopted by Company while Outsourcing to a related party or associate would be identical to those followed while outsourcing to an unrelated party.
